Safety Instructions:

- Make sure that the cabinet is stable and on a level surface to prevent it from tipping over.
- Avoid overloading the cabinet or exceeding the maximum load of 50 kg on the shelves.
- Only use the cabinet for its intended purpose and not as a ladder or step.
- Assembly and use should be carried out in accordance with the enclosed instructions to ensure safety.
- Keep small parts and assembly materials away from children to avoid the risk of suffocation.
- Ensure that the lock is working properly to prevent unauthorised access.
- Not suitable for children under 3 years of age due to small parts and risk of injury.
- The cabinet should not be installed near heat sources or in humid environments.
- Clean the cabinet with suitable, non-aggressive cleaning agents.
- Secure the cupboard to the wall to prevent it from tipping over, especially if there are children in the household.
- Keep the surfaces of the cabinet clean and avoid sharp edges to prevent injuries.
- Keep the doors closed and make sure that there are no obstacles in the way to avoid injury.
- Store heavier objects on lower levels to ensure stability.
- Ensure that all parts are correctly assembled to avoid injury from loose components.
- Warning: Small parts that fall off during improper use must be kept out of the reach of children.
- Check for damage such as rust or broken parts and do not reuse if damaged.
