Safety Instructions:

- Check the stability of the customer stopper regularly, especially in strong winds.
- Ensure that the product is installed on a stable and level surface; care must be taken when installing on uneven ground.
- To ensure stability, avoid use in extreme weather conditions (e.g. storms above wind force 10).
- The product is storm-proof up to wind force 10; take appropriate precautions when using outdoors.
- Follow the instructions for installation and use to prevent accidents.
- Wear suitable warning labels on the products to avoid potentially dangerous situations.
- The use of water and snow loads for stabilisation is not recommended to prevent overloading the frame.
