Safety Instructions:

- Ensure that the top-mounted cabinet is stable to prevent it from tipping over and is only installed on a level, stable surface.
- Only suitable for indoor use and keep away from wet, humid environments.
- Do not load beyond the permissible load to avoid damage and risk of injury.
- Do not allow children access to the top cabinet to avoid the risk of injury and suffocation.
- Read and follow the instructions and safety information carefully before installation to ensure stability and safety.
- Avoid overloading and overloading the drawers and doors to prevent structural damage.
- Only use the top-mounted cabinet in accordance with the intended conditions of use and use suitable fastening elements to ensure stability.
- Avoid standing or sitting on the top cabinet to prevent injuries.
- Keep the area around the cabinet free of obstacles to avoid tripping accidents.
- Safety instructions should be provided in German.
- There is a considerable risk of injury if the product is installed or used incorrectly. Regular checks on the stability and condition of the product are recommended.
- Ensure that the cabinet is used in a dry room and that the surface is clean and free of liquids to avoid moisture damage and the risk of slipping.
- The product should always be used in its assembled state and assembled by adults.
- If damaged, take out of service immediately and dispose of appropriately.
- In the event of a recall warning, consumers should be informed via suitable communication channels.
