**E-Mail:** info@klain.de

Please note the technical data of the products!

**Article Numbers:** 54006, 54005, 54004

### Safety Instructions:

- Ensure that the height of the table is properly adjusted to ensure stability.
- Avoid sitting or standing on the table to prevent the risk of falling and possible injury.
- Make sure that no heavy objects or weights are placed on the table to prevent it from tipping over or being damaged.
- Keep the table away from heat sources or direct sunlight to avoid colour changes or material deformation.
- Assembly instructions and safety information must be included to ensure correct and safe use.
- Ensure that the conference table is positioned on a level and stable surface to prevent it from tipping over.
- Avoid increasing the weight beyond the recommended load for the table to prevent damage.
- When adjusting the height, pay attention to the adjustment range of 720-820 mm to avoid injuries.
- Check the levelling screws on the table legs regularly to ensure a stable position.
- During assembly, make sure that all parts are firmly and securely connected.
- Secure the table against tipping or falling over, especially when adjusting the height.
- Avoid using the table on uneven ground to minimise the risk of wobbling.
- Make sure that no body parts can be crushed when adjusting the height.
- The table top has a thickness of 25 mm; avoid excessive loads to prevent damage.
- The table should only be used in rooms and applications intended for this purpose.
