Article Numbers: 54033, 54032, 54031

Safety Instructions:

- Ensure that the table is stable to avoid the risk of tipping. Use floor levelling to avoid the risk of falling due to wobbly feet.
- Do not exceed the maximum recommended number of people (14).
- Be aware of the possibility of crushing or injury from moving parts. Take care when handling electrical components: Improper handling can lead to electric shocks. The table connection panel contains electrical components: Only allow qualified personnel to operate.
- Use the electrical connections in accordance with the safety instructions and ensure that no overloading occurs. Do not use the desktop connection panel in humid environments. Ensure that the desktop connection panel is properly installed to prevent electric shocks.
- Follow the instructions for height adjustment and safety mechanisms. Only use the height adjustment of the table within the recommended range (720-820 mm) to ensure stability. Beware of the risk of crushing when adjusting the height of the table frame.
- Keep the product away from children and pets to avoid injury from improper use. Smallest parts could be swallowed by small children: Use only by adults or under supervision.
- When using the table, make sure that there are no objects in the area of the table legs to avoid tripping accidents.
- The product should be checked regularly for damage in order to minimise safety risks.
- Supporting furniture or equipment must not exceed the weight of the table to prevent it from tipping over.
