Safety Instructions:

- Stability check required to avoid the risk of tipping over. Ensure that the product is stable on a level floor to prevent it from wobbling or tipping over.
- Keep the product away from children, as small parts could be lost during assembly or use, posing a choking hazard. Store out of the reach of children to avoid injury.
- Keep the product information and packaging dry and away from heat sources. To prevent damage to the material, do not store the product in a damp environment or in the vicinity of moisture or strongly fluctuating temperatures.
- Suitable tools are required for assembly; assembly should be carried out by an adult. Please ensure that assembly is carried out in accordance with the instructions to avoid injury and to ensure stability. Read the assembly instructions carefully and ensure that all parts are properly installed.
- Make sure to place heavy objects on the stable shelves of the rack. Do not exceed the shelf weight during use to avoid breakage or instability. Avoid storing heavy objects on the top shelves.
- Avoid using sharp objects on the surface of the shelf to prevent scratches and damage. Check sharp edges or uneven surfaces regularly and treat them if necessary.
- Ensure that the product is checked from time to time for loose parts and stable assembly.
- Keep the product away from strong chemicals and solvents that could damage the surface coating.
- It is recommended to contact the manufacturer in the event of damage or defects in order to avoid safety risks.
