Safety Instructions:

- The cabinet must stand on a stable surface and be properly installed and secured to prevent it from tipping over.
- Avoid excessive loads on shelves; observe max. 60 kg load to ensure structural integrity and prevent damage.
- Use the cabinet in accordance with the intended instructions for use, assembly instructions and manufacturer's instructions to ensure safety and stability.
- Children should be allowed to use the cabinet under supervision; ensure that they do not climb or play on it to minimise the risk of injury.
- Regularly check the hinges and locks for functionality, as they are made of high-quality metal; contact the manufacturer immediately in the event of problems.
- Ensure that all furniture parts and drawers are correctly assembled to avoid the risk of falling and crushing; mount height-adjustable shelves securely and firmly.
- Keep the product away from sources of fire and water to prevent fire and water damage.
- Do not use as a climbing aid and do not place heavy objects on surfaces to prevent material damage.
- Do not overload drawers and pull-outs in order to avoid structural and safety risks; do not exceed a maximum load capacity of 60 kg for hanging file drawers.
- Ensure child safety by avoiding sharp edges and corners, using padding and positioning in inaccessible places.
- Safety information and instructions for installation and use of the product must be provided; clarify return conditions in the event of defects.
