Safety Instructions:

- Caution: The cabinet could tip over if it is not properly secured and placed on a level, stable surface. Use the anti-tip device.
- Do not exceed the maximum load of 60 kg to avoid breakage or injury. This applies to shelves, pull-outs and compartments.
- Sharp edges: Be careful to avoid injury and keep them away from children.
- Follow the installation instructions for safe and correct installation. Carry out regular inspections of the hinges, locks and mechanisms to ensure they are working properly.
- Take care when closing the doors and drawers to avoid crushing and trapping. Keep them closed when not in use.
- Ensure that children do not play with or climb on the product. The product is not suitable for use by children.
- The drawers and compartments should not be overloaded to avoid breakdowns and accidents.
- Choking hazard due to small parts that could be loose during assembly: Keep small parts away from children.
- Only use the recommended cleaning agents and care for the surfaces in accordance with the care instructions to prevent material damage.
- The product should only be used indoors and should not be exposed to excessive moisture or direct sunlight.
- Improper use should be avoided to prevent injury or damage. Only use the product for its intended purpose.
