Article Numbers: 142308, 142307, 142306, 142305

Safety Instructions:

- All parts should be well made and without sharp edges or corners to prevent injuries.
- Products should contain clear and understandable instructions and safety information.
- The stability of the shelf is important to prevent objects from tipping over or falling.
- The product is only suitable for use by children under supervision.
- Correct fastenings, load-bearing capacities and suitable protective measures (e.g. gloves) must be observed during installation.
- Safe storage and handling of the shelf are important.
- Loads should remain within the permissible weight limits and not exceed the maximum load capacity in order to avoid tipping or breaking.
- Wood-based materials in the product can release formaldehyde; good ventilation is necessary.
- Suitable tools are required for installation.
- Elements must be properly anchored for safe use.
- Not suitable for use in damp or wet areas.
- Instructions for safe use, disposal and handling of potential hazards must be included.
- The product should be made of safe and non-toxic materials.
