Safety Instructions:

- Take care not to load the Euro Box above the maximum permitted weight of 30 kg.
- The box should not be stored near sources of heat or naked flames.
- The Euro Box is not suitable for direct sunlight in order to avoid material changes and discolouration.
- Only use the box for the intended materials and applications in order to minimise safety risks.
- Clean the box with suitable cleaning agents so as not to jeopardise the integrity of the material.
