Safety Instructions:

- Place the mobile pedestal on a stable and level surface to prevent it from tipping over, especially when the drawers are open.
- Supervise the use of furniture for children under 3 years of age to avoid hazards from edges or drawers.
- Be careful not to trip over cables that are routed through the cable duct; ensure tidy and safe cable management to avoid tripping hazards.
- Ensure that the furniture is assembled securely and carefully to prevent it from wobbling or tipping over. Read the assembly instructions carefully before assembly.
- Avoid placing heavy objects on the table to avoid stability problems.
- Use the roll container within the specified maximum load capacity to avoid damage and keep it closed when not in use to minimise the risk of injury.
- Carry out regular maintenance and inspection of the furniture sets and refrain from using them immediately if they are damaged.
- Make sure that there are no sharp edges to avoid cuts.
- Position the furniture on a stable and level surface and check the stability regularly, tighten loose screws.
- Only use the furniture for its intended purpose and do not overload it.
- Observe the safety instructions in accordance with the General Product Safety Regulation.
