Article Numbers: 150756, 150754, 150752, 150750

Safety Instructions:

- Take care when stacking the pallet box to prevent it from tipping over.
- Maximum dynamic load: Do not exceed 650 kg.
- Maximum static load: Do not exceed 7000 kg.
- Handle with care to avoid injury from crushing.
- Do not load the pallet box with sharp objects to avoid material damage.
- Carry out regular inspections to ensure that the box is not damaged.
- Do not use the box in areas where it could be exposed to extreme temperatures or harmful chemicals.
- Observe local recycling regulations when disposing of the box, as it is 100% recyclable.
- Ensure that the maximum load capacity is not exceeded.
- Avoid improper use, which could lead to instability.
- Store the box in a dry place to prevent damage from moisture.
- Use the folding mechanisms carefully to avoid injury.
- Dispose of the product in accordance with local regulations for plastic waste.
- The pallet box should be used on a level floor to prevent it from tipping over.
- The pallet box is suitable for transporting goods, but not people.
- The edges of the box are flattened, but sharp edges should be avoided to prevent injuries.
- The hygienic suitability of the box should be checked regularly to prevent the accumulation of residual water.
- The pallet box is not suitable for use by children.
- Avoid stacking the box in a way that jeopardises its stability.
- Ensure that the box is not damaged before using or stacking it.
- Please note that dry, smooth surfaces are necessary to prevent tipping or slipping.
- Check the hygiene suitability regularly, especially if it is used for food storage.
- Wear suitable protective equipment when lifting heavy loads to avoid injury.
