Article Number: 131537

Safety Instructions:

- The workbench should only be loaded with a maximum of 300 kg to avoid structural damage.
- Improper use of the drawers can result in crushing injuries; make sure that children do not play with them alone.
- Avoid overloading the drawers by more than 35 kg to prevent the drawer mechanism from tearing or failing.
- The plastic glides must be checked regularly for wear to ensure stability and safety.
- All parts, including the locks and central locking systems, must be checked regularly for functionality.
