E-Mail: info@schaefer-shop.de

Please note the technical data of the products!

Article Numbers: 131522, 131521

Safety Instructions:

- Take care when using the electrically height-adjustable table to avoid injury from improper operation. Ensure that the height adjustment is carried out in a safe area.
- Regularly check the stability of the table frame and ensure that the table is standing on a stable surface to minimise the risk of tipping or wobbling.
- Warning: Risk of electric shock if electrical components are handled incorrectly. Regularly check the electrical components for functionality and safety.
- Please ensure that the table is only used within the specified load capacity (max. 100 kg static, 80 kg dynamic). Do not load the worktable above the recommended maximum load.
- Make sure that no objects obstruct the freedom of movement of the height-adjustable mechanism.
- Ensure that the product is only operated by an authorised person.
- Provide instructions for the safe use and maintenance of the table.
