Article Numbers: 881974, 881973, 881972

Safety Instructions:

- Install collision protection securely and check regularly for damage.
- Read the installation instructions carefully before installation.
- Use suitable tools and wear personal protective equipment during installation.
- Make sure that the collision protection is installed in areas that are not heavily frequented in order to avoid collisions.
- Ensure the stability of the collision protection to prevent it from tipping over or slipping.
- Designed in accordance with the safety guidelines BGR 234 and DIN 4844.
- For indoor use only; not suitable for outdoor use.
- Plastic coating may fade in direct sunlight.
- Ensure that the collision protection is properly fastened; mount the screw correctly, use suitable dowels and screws, stable base required for dowelling.
- The collision protection can potentially cause injuries if it is not securely fitted.
