Safety Instructions:

- To avoid injury, do not pull the product off the floor without suitable fixings or dowels.
- Ensure that the product is mounted on a firm surface to prevent it from tipping over or slipping.
- The product is only intended for use on bicycles with a tyre width of up to 55 mm.
- Avoid overloading the ironing parker to prevent damage or injury.
- The product must be protected from rain and extreme weather conditions, even if it is made of hot-dip galvanised steel.
- Suitable dowels are required for secure installation, but these are not included in the scope of delivery.
