

Product Safety Information

Industrial gratings for heavy duty use, cut to size

Manufacturer/Responsible Person: Ewald Hildebrandt GmbH & Co. KG, Feldstraße 30, 44867 Bochum, Deutschland

E-Mail: kontakt@eha.de

Please note the technical data of the products!

Article Numbers: 151465, 151464, 151463, 151462

Safety Instructions:

- Install the grill on a stable, level surface to avoid the risk of falling.
- Avoid contact with sharp objects and naked flames to prevent damage and ignition of the material.
- Do not use caustic cleaning agents that could attack the material.
- Check the grate regularly for signs of wear and replace it if necessary.
- Observe the slip resistance according to DIN 51130 (R11/V10) to avoid the risk of falling.
- At extreme temperatures (below -30°C or above +70°C) the material integrity may be impaired.
- Ensure that the load limit of 1,800 kg/sqdm is not exceeded in order to avoid the risk of breakage.
- Take care when handling the product to avoid injury from sharp edges. Use suitable personal protective equipment (PPE).
- The article can withstand high loads of up to 1,800 kg/sqdm and is temperature-resistant from -30°C to +70°C.
- Keep the item out of the reach of children.
- The material is resistant to fats, oils and most chemicals, but care should be taken with unknown chemicals.
- Observe edge protection or additional safety precautions during installation and use.
