Safety Instructions:

- Observe the safety instructions for handling the hazardous goods authorisation.
- Protect the product from direct sunlight and moisture.
- Only make available to persons outside the company with adequate safety instructions.
- Do not exceed the maximum load capacity; do not load the crate beyond the maximum load capacity to prevent structural damage.
- Please ensure that the crate is only used for the intended loads in order to avoid overloading and the associated damage.
- Only use for the transport of hazardous goods in accordance with the relevant regulations; when transporting hazardous substances, ensure that all legal safety regulations are observed.
- Dispose of boxes safely and properly after use.
- The crate is suitable for hazardous solid goods of packing group II. Please ensure that the instructions for use are observed.
- Due to the robust and scratch-resistant materials, improper handling can lead to injuries. Handle with care.
- There are carrying handles on the sides for safe handling. Please use these to avoid injury.
