Article Numbers: 882012, 882011

Safety Instructions:

- Do not exceed the maximum load capacity of 250 kg.
- Ensure safe handling of the table trolley when loading and unloading.
- Secure the table trolley during loading and unloading, especially if the swivel castors are not locked.
- Avoid jerky movements to prevent the trolley from tipping over.
- Make sure that the floor on which the trolley is moved is level and free of obstacles.
- Check wheels regularly for tight fit and wear.
- There is a risk of tripping if used incorrectly.
- Keep the product out of the reach of children as it may contain small parts.
- The applicable health and safety regulations must be observed for use in the commercial sector.
