Safety Instructions:

- The presentation board should be protected from knocks and collisions to prevent damage.
- Make sure that the presentation board is placed on a stable, level surface to prevent it from tipping over.
- The product must not be transported or picked up improperly in order to avoid injury.
- Smaller parts required for assembly or use must be stored in a childproof place to avoid the risk of suffocation.
- Make sure that the board is stable when used with castors or in mobile form to prevent falls and accidents.
- If used improperly, there is a risk of people falling over or being injured due to the size and construction.
- Only use the presentation board in its intended area of use to avoid injury or damage to property.
- Parents and carers should ensure that the moderation board is used out of the reach of small children to prevent them from folding over or injuring themselves.
- The stability of the board can be affected if the legs are not fixed correctly; it is therefore important to attach them properly.
- Do not use any additional weights or modifications to the board, as this may jeopardise safety and stability.
