Safety Instructions:

- Only use within the specified temperature range of -15° to +80°C
- Do not stack if the box is overloaded
- Keep the box away from naked flames and hot surfaces
- Beware of sudden material breakage; containers or accessories may flake off
- The boxes are not intended for the transport of dangerous goods
- Do not bring into contact with pointed or sharp objects
- When used with suspension files, ensure correct positioning to avoid overfilling
- Keep out of the reach of children to avoid the risk of choking on small parts
