Safety Instructions:

- The office chair is suitable for users weighing up to 110 kg. The maximum load should not be exceeded in order to avoid injuries.
- Regular maintenance and functional checks of the safety lift are necessary to prevent sudden lowering.
- Ensure that the backrest and seat height are correctly adjusted to prevent back injuries.
- Ensure that the product is used in accordance with the instructions in order to minimise ergonomic risks.
- Correct assembly and installation are required to avoid stability risks.
- Regularly check for damage and ensure full functionality.
- For use on carpets and hard floors, only use suitable castors to ensure stability.
- Not suitable for children under 3 years due to small parts. Designed for use by adults.
- Use the knee roll according to the instructions to avoid blood congestion.
- Chair is not suitable for overweight users over 110 kg.
- Ensure that the chair is placed on a stable surface to prevent it from tipping over.
- If the fabric cover is dirty, it can be cleaned with a mild detergent.
- The height-adjustable backrest should only be adjusted within the recommended adjustment range (80 mm).
- Avoid sucking loose objects, such as clothing or hair, into the rollers.
