Safety Instructions:

- Avoid loading the chair beyond its maximum load of 110 kg.
- The recommended sitting time is a maximum of 8 hours per day.
- Ensure that all adjustable parts are set correctly to avoid injury.
- Only use the chair in accordance with the manufacturer's instructions.
- Keep the chair out of the reach of children to avoid injury from improper use.
- Make sure that the castors are suitable for the respective floor covering to avoid damage.
- If the parts are damaged or worn, the chair should no longer be used.
- Before use, ensure that all adjustment mechanisms are working correctly.
- To avoid falls, check regularly that parts are firmly seated.
- Ensure that the correct parts and instructions are used during assembly.
- Check that the safety castors are in working order before use.
- Risk of suffocation due to improper use of the mechanism.
- Risk of slipping due to improper use on slippery floors.
- Risk of injury due to unstable seat adjustment.
- Not suitable for children under 3 years of age due to possible risk of injury.
- Avoid adjusting the seat height and tilt while seated to prevent accidents.
- Only use the chair on the intended surfaces to ensure stability.
- Check all moving parts regularly for wear to ensure proper functioning.
- Follow the installation instructions carefully to ensure the safety of the product.
