### Safety Instructions:

- Maximum load: The chair can be loaded up to 110 kg. Avoid a load of over 110 kg and check the user's weight before use.
- Risk of suffocation and injury from moving parts: Ensure safe handling and keep children away from moving parts to avoid injury. The chair is not suitable for children.
- Risk of falling if the seat height is incorrect: The seat height should be adjustable using the safety lift before use and securely locked in place.
- Recommended use: The chair is designed for sitting for up to 8 hours a day. Sitting for longer periods can be harmful to your health.
- Regular inspection and maintenance: Mechanisms should be regularly checked for correct function and maintained to ensure safety.
- Ergonomic adjustments: Adjust the seat height, depth and backrest to suit your height and avoid using excessive force when making adjustments.
- Use on stable surfaces: The chair should be used on a stable, level surface. Do not use on unstable surfaces.
- Suitability for floor coverings: Chair castors are suitable for all floor types, but check suitability for special surfaces.
- Correct posture: Make sure you maintain correct posture while sitting to prevent back problems.
- Care instructions: Vacuum the fabric cover regularly and treat with upholstery cleaner once a year. Ensure correct cleaning to ensure the longevity of the product.
- Contact the manufacturer if you have any questions or problems.
