

# Product Safety Information

## Tubular film for welding apparatus, made of 50µ polyethylene

**Manufacturer/Responsible Person:** mdf-verpackungen GmbH, An der Zinkhütte 5, 51469 Bergisch Gladbach, Deutschland

**E-Mail:** info@mdf-verpackungen.de

Please note the technical data of the products!

**Article Numbers:** 152559, 152558, 152556, 152555, 152554, 152553, 152552, 152551

### Safety Instructions:

- Not suitable for contact with food unless specifically certified for this purpose.
- Caution: Not suitable for direct contact with food.
- Must not get into the hands of small children as there is a risk of suffocation.
- Protect from direct sunlight and extreme temperatures to prevent material damage.
- Safe handling and storage required to avoid environmental influences.
- Do not use near open flames or high heat, as the film is flammable.
- To avoid damage, do not bring the product into contact with sharp objects or chemical cleaning agents.
- Store in a cool, dry place to prevent material deterioration.
- Choking hazard if used and handled incorrectly due to small parts that can be swallowed.
- Suitable for commercial use only.
- The film is not biodegradable, so dispose of it in an environmentally friendly manner.
- Foil can be slippery, be careful when using on smooth surfaces.
- When using welding equipment, follow the operating instructions to avoid injury from hot surfaces.
- Risk of electric shock when used with electric welding equipment.
- Check the film for damage before use to minimise the risk of tears or breaks.
- Dispose of packaging material after use in accordance with local regulations.
- Please avoid use at temperatures above 80°C.
- Keep product away from children's hands and eyes.
