Safety Instructions:

- Choking hazard due to improper handling of small parts. Keep small objects out of the reach of children.
- Keep the cabinet out of the reach of children to avoid the risk of injury.
- Check that all parts are complete and undamaged before assembly. Use the enclosed instructions carefully to avoid errors during assembly.
- When installing the cabinet, follow the manufacturer's instructions carefully to ensure safety. Improper assembly can cause the product to tip or fall over.
- The use of attachments or accessories that are not recommended by the manufacturer could impair safety.
- Do not overload the cupboard. Observe the maximum load capacity of the shelf (maximum 50 kg per shelf).
- Only use the cabinet for its intended purpose and load to minimise the risk of damage or injury.
- The cabinet must be placed on a stable and level surface to prevent it from tipping or falling over.
- Ensure that all parts of the cabinet are properly secured to prevent injury.
- When opening the sliding doors, make sure that there are no people or objects in the way and avoid opening with excessive force to prevent injury and damage.
- Please open and close the sliding doors carefully to avoid crushing.
- Check the cabinet regularly for stability and secure fastening. Carry out regular stability and functionality checks.
- Keep the cabinet away from sources of water to prevent damage.
