Safety Instructions:

- Make sure that heavy objects are securely stowed to prevent injuries from falling over or dropping.
- Only use the cabinet in accordance with the instructions provided and avoid placing excessive loads on the shelves (max. approx. 50 kg).
- Ensure that the cabinet is placed on a stable and level surface to prevent it from tipping over.
- Warning notices regarding the maximum load of the shelves should be clearly visible on the product.
- Keep the cabinet closed to minimise the risk of injury and falls in the event of improper use.
- Follow the instructions carefully when assembling the cabinet to ensure a secure structure.
- Enclose safety information in accordance with the General Product Safety Regulation.
- Attach warning notices on the safe use and disposal of the product.
- Use the product for its intended purpose to minimise health risks.
- Pay particular attention to stability when using on uneven floors.
- Always check the safety of the product when making modifications or repairs.
- Only use suitable cleaning agents to clean the surfaces and prevent damage.
- Due to the metal parts contained, there is a risk of injury if handled incorrectly.
- The height adjustment screws should be checked regularly and readjusted if necessary.
- Check that the cabinet is stable after assembly and that there is no risk of it tipping over.
