

# Product Safety Information

## Office and archive shelving, complete set

Please note the technical data of the products!

**Article Numbers:** 190678, 190676

### Safety Instructions:

- Observe the maximum load capacity of 100 kg per shelf to avoid overloading.
- Attach the shelf securely to the wall to prevent it from falling over.
- Before installation, ensure that all parts are present and undamaged.
- Only use the shelf for its intended purpose, do not load it improperly.
- Follow the instructions carefully when adjusting the height of the shelves.
- Keep the product in a stable condition before assembly to avoid the risk of falling.
- Secure the shelf carefully when the height adjustment is in use to prevent it from wobbling or tipping over.
- Only use for approved applications to minimise safety risks.
- Improper use can lead to injuries, therefore observe the operating instructions.
