Safety Instructions:

- Ensure that the product complies with the product safety requirements of the General Product Safety Regulation.
- Provide clear instructions and safety information in a language that consumers can understand.
- Regularly check the conformity of the product with applicable safety standards.
- In the event of safety problems, notify the market surveillance authorities immediately.
- Establishment of publicly accessible communication channels for consumers to report safety problems.
- Make sure that the product is mounted stably and securely on the wall to avoid the risk of falling.
- Avoid prolonged exposure to direct sunlight to prevent discolouration and material fatigue.
- When using the appliance outdoors, ensure that the hinged lid is always closed to minimise the effects of the weather.
- The product is made of crystal-clear acrylic; breakage or cracks in the material can cause injury.
- The product should be placed out of the reach of small children to avoid danger from edges or broken parts.
- Caution: Sharp edges could cause injuries.
- The product can become slippery when wet, use it accordingly.
- The product is not suitable for direct contact with food.
- When installing outdoors, ensure that the weather resistance of the material is taken into account.
- Occasional inspection for cracks or other damage to ensure safety.
- Avoid sharp objects in the vicinity to prevent scratches and breakages.
