Safety Instructions:

- Cabinet is heavy (weight: 45.5 kg) - Ensure that it is securely mounted and stable to prevent it from tipping over.
- Do not exceed the maximum recommended load capacity of the optional shelves (75 kg).
- Cabinet should not be used in humid environments as this may affect the material integrity.
- Cupboard not suitable for children under 14 years of age due to risk of injury and choking hazard from small parts. Cupboard should be assembled by adults.
- Do not overload the cabinet to ensure structural integrity.
- Contains moving parts (shutters) - risk of injury from crushing.
- Use the locked handle opening with lock to prevent unauthorised access; improper handling of the lock can damage it.
- Cabinet supplied without shelves; suitable shelves should be ordered separately.
- Ensure that the cabinet is not located near a fire or heat source.
- Product not intended for children; avoid serious injury.
- Regular inspection of stability and assembly recommended.
