Safety Instructions:

- Ensure that the chair is used on a firm and stable surface to prevent it from tipping over.
- Ensure that the gas spring is set correctly and never adjust it during use to prevent accidents.
- The chair is electrically conductive, so make sure that there are no damp conditions.
- The wheels of the chair are suitable for the respective floor; improper use can lead to damage.
- Follow the enclosed instructions carefully when assembling and maintaining the chair.
- The chair can be damaged by improper use and heavy objects should not be stored on it.
- Avoid moisture on the seat surface to prevent tears in the artificial leather.
