Article Numbers: 151682, 151681

Safety Instructions:

- Not suitable for children under 3 years of age due to choking hazard caused by small parts that can be swallowed. We recommend keeping out of the reach of children to reduce the risk of improper use.
- Protect from direct sunlight to avoid evaporation or contaminating substances. Product should be protected from direct sunlight to avoid discolouration due to UV radiation.
- The product can hold hot water up to 70 °C, so use with caution.
- Before use, ensure that the drain tap is properly closed to prevent leakage.
- After using the canister, ensure correct storage at temperatures between -20 °C and +70 °C.
- Do not fill with hot liquids to prevent deformation.
- The channel for draining liquids must be cleaned after use to prevent mould growth.
- Ensure chemical resistance to aggressive substances to avoid decontamination.
- Never fill the water canister above the maximum fill level to avoid overflowing.
