### Safety Instructions:

- Not suitable for food storage.
- Protect from direct contact with chemicals and be aware of the effects of highly concentrated chemicals.
- Follow the operating instructions and safety instructions.
- Keep away from children's play, choking hazard due to small parts.
- Intended for the storage of chemicals, use only by trained personnel.
- Keep the drip tray away from direct heat sources and strong mechanical influences.
- Wear suitable personal protective equipment (PPE) when handling chemicals.
- In the event of a chemical spill, take appropriate containment and cleaning measures immediately.
- Check the drip tray regularly for damage and functionality.
- Only use the drip tray in well-ventilated areas to minimise the risk of vapours or gases.
- Do not exceed the maximum load of the tray to ensure safe storage.
- Use only for chemical-resistant substances, observe safety data sheets.
- Do not overload the tank; maximum 60 litres according to specification.
- Wear protective clothing when using drums containing hazardous substances.
- Observe guidelines for the correct disposal of chemicals and drip pans.
