Safety Instructions:

- Read the operating instructions before first use.
- The pallet truck is not suitable for transporting people.
- Pallet trucks are not suitable for use on inclines.
- The load capacity (2.5 tonnes) must not be exceeded.
- Be aware of possible crushing hazards when lifting and lowering.
- Wear protective clothing and safety shoes.
- Carry out proper lifting and lowering of the trolley to avoid injury.
- Ensure regular maintenance and inspection of the safety equipment.
- Ensure that the pallet truck is used on a level surface to prevent it from tipping over.
- Avoid working with the pallet truck in areas with unauthorised access to prevent accidents.
- Keep the gripping surfaces free of obstacles to avoid tripping and falling accidents.
- Only trained employees are permitted to use the pallet truck.
- Check the pallet truck for visible damage or defects before each use.
- Only use the pallet truck on firm, level ground.
- Hold the handle firmly during operation and avoid abrupt movements.
- Keep the pallet truck out of the reach of children.
- Ensure that no persons are in the immediate vicinity while loads are being lifted or lowered.
