Safety Instructions:

- Ensure that the product has been designed and manufactured in accordance with the technical safety requirements.
- Do not lift above the maximum load capacity: 1.5 t for low-floor pallet trucks, 1.0 t for BF-L1000 pallet trucks.
- Take protective measures against crushing and cutting injuries to the forks.
- Ensure that the pallet truck is operated on a stable, level surface.
- Operate according to the manual to avoid operating errors and accidents.
- Follow the safety instructions for maintenance and care to ensure proper function.
- The BF-L1000 lift trolley should only be used by trained personnel.
- Ensure that no body parts can become trapped between the fork and the load.
- Only use the pallet truck for its intended purpose and do not allow unauthorised persons to work in the vicinity.
- Regular maintenance and inspection of the pallet truck are necessary to ensure safety.
