Safety Instructions:

- The drip tray may only be loaded with an evenly distributed load of maximum 50 kg.
- Before use, ensure that the tray is standing on a stable and level surface.
- The height of the tray may only be adjusted in 25 mm increments to prevent it from tipping over.
- There is a risk of injury if used incorrectly.
- Tubs must be protected from direct sunlight to prevent material fatigue.
- Ensure correct handling and positioning of the drip tray to avoid accidents.
- Childproof lock: Keep out of the reach of children as there is a risk of suffocation from small parts.
- Ensure water and chemical retention: Do not store any aggressive chemicals in the tray.
