Safety Instructions:

- Safety instructions must be observed when using the MH200 pallet truck.
- Ensure that the product is not overloaded (maximum load capacity 200 kg).
- Only use the foot pedal for lifting and lowering, not for other purposes.
- Keep the work area free of obstacles to minimise the risk of accidents.
- Make sure that no body parts can get into the lifting mechanism.
- Always wear suitable footwear during use to avoid injury.
- The product is intended for commercial use only and not for private use.
- Inform all users about correct operation and possible dangers.
