Article Numbers: 305018, 305016, 305013, 305010, 305008, 305007, 305006, 305005, 305004, 305003, 305001

Safety Instructions:

- Check before use: Lift truck on suitable surface - firm and level is required.
- No overloading: Observe maximum load capacity (2500 kg, 3000 kg, 2000 kg model BF1800, 3500 kg depending on model).
- Only use the pallet truck for its intended purpose and on a level, stable surface; do not move any unauthorised loads.
- Read manuals/operating instructions carefully before use; safety instruction required.
- Wear suitable protective equipment: e.g. safety shoes, gloves.
- Ensure that the area around the pallet truck and the surrounding area is free of obstacles/people.
- Only allow trained personnel to use it.
- If used incorrectly: risk of injury (crushing, falls); take care with heavy loads.
- Regular maintenance work required: Check/lubricate rollers, forks and components.
- No visible damage: Check for damage before use; do not use if damaged.
- Not a toy: Keep children and untrained personnel away; choking hazard with small parts.
