Safety Instructions:

- Ensure that the tilt lift tables are only loaded in accordance with the maximum load capacity of 150 kg (NHT150).
- Avoid improper handling that could lead to injuries, especially when lifting and tilting the table.
- The use of tilting lift tables should be carried out by trained personnel in order to minimise ergonomic risks.
- Secure the table with the parking brake before placing goods on it.
- Check the condition of the polyurethane castors regularly to ensure that they are safe and smooth-running.
- Read the enclosed safety instructions carefully before using the product.
