Safety Instructions:

- Only use the pallet truck on firm, level and stable surfaces.
- The maximum load capacity of 400 kg must not be exceeded.
- Before lifting and lowering, remove all persons from the danger zone.
- Check the battery capacity on the charger before use.
- In the event of a power failure, stop the pallet truck immediately.
- Test the brakes for functionality before each use.
- Avoid using the high-lift pallet truck over uneven surfaces or stairs.
- Wear protective clothing and sturdy shoes when operating the high-lift truck.
- Observe the safety instructions for proper use.
- Only use the pallet truck for its intended purpose; do not exceed a load capacity of 400 kg.
- Do not use in areas with increased danger (e.g. water).
- Do not bring electrical components into contact with water or liquids.
- Users must be instructed in the handling of the high-lift pallet truck.
- In the event of failure or damage, cease operation and contact the manufacturer.
- Ensure that all safety devices are working, especially the parking brake, before using the appliance.
