Safety Instructions:

- Always read and observe the operating instructions before use.
- Ensure that the machine jack is used on a stable and level surface or a firm and stable base.
- Observe the maximum load capacity of the appliance and do not exceed it.
- Always fold the crank handle in completely when not in use and lock it securely before use to prevent it from folding in accidentally.
- Keep the area around the machine lifter clear of people and other equipment, do not stand or work under raised objects.
- Wear protective clothing, especially gloves and safety shoes, to avoid injury.
- Observe the safety instructions to avoid risks such as crushing or falling injuries and beware of crushing hazards when handling the machine lifter.
- Ensure that the machine is set up and secured safely before lifting.
- If handled incorrectly, the appliance may tip over or slide and cause serious injury.
- Prevent use if the crank handle is not properly fixed.
- Take safety precautions when lifting machines to prevent slipping.
- Wear safety goggles and gloves to avoid injury.
- Wear gloves to avoid injury to hands during transport.
