Article Numbers: 305095, 305094, 305093

Safety Instructions:

- Attention: Not suitable for the transport of live animals.
- Observe safety precautions: Use only for the intended purpose.
- Wear the necessary personal protective equipment (e.g. sturdy shoes, gloves).
- For heavy loads, additional aids and safety precautions must be taken to avoid back pain or injuries.
- Do not load beyond the maximum load capacities. Do not exceed the maximum load capacity of 1800 kg.
- Use only on level and stable surfaces to avoid wobbling, tipping over or falling.
- Ensure that the load is stable and securely positioned on the furniture transport trolley.
- Do not increase the lifting height beyond the specified max. lifting height (250 mm).
- Risk of injury due to improper use or overloading.
- Before lifting or lowering the load, ensure that all persons in the work area remain standing.
- Check the product regularly for damage or wear and tear to rule out safety risks.
- Ensure that the product is only operated by a sufficiently strong person to avoid injury.
- Take care when lifting heavy loads to avoid back pain or injury.
- Do not use the product on uneven or dangerous surfaces to avoid falls.
- Take additional precautions to prevent the appliance from tipping over or slipping.
- Only use with the intended crank or hydraulic system to ensure that safety is guaranteed.
