Safety Instructions:

- Caution: The wet and dry vacuum cleaner may only be operated by qualified personnel.
- The device may only be used for the intended applications.
- Ensure that the suction hose and nozzles are correctly fitted to prevent blockages.
- Before connecting to the mains, always check that the electrical components are in perfect condition.
- Do not use in explosive atmospheres or with flammable materials.
- Do not exceed the maximum air flow rate of 10500 litres/minute.
- Take care when emptying the dirt container to avoid injury from liquids or heavy deposits.
- Ensure that the float switch functions correctly for wet suction.
- Maintenance work should only be carried out when the appliance is switched off.
