Article Numbers: 133113, 133112, 133111, 133110, 133109

Safety Instructions:

- Caution: Risk of injury from sharp edges of the inner insert.
- Ensure that the waste bin is made of stable materials to prevent it from tipping over.
- The waste bin is not suitable for children. Keep children away from using it.
- Ensure safe use in accordance with the instructions.
- Observe protective measures against sharp edges and splintery materials during use.
- Improper use can result in mechanical hazards.
- Dispose of the product in accordance with local regulations.
- Ensure that the waste bin does not overheat, especially when used near heat sources.
- Protect the product from moisture to prevent corrosion.
- Caution: Sharp edges due to stainless steel cover.
- The product is heavy; make sure it is stable to avoid injury.
- Avoid heating by direct sunlight, as the material can heat up.
- Check regularly for corrosion when used outdoors.
- Improper handling can lead to injuries.
- The product is primarily intended for outdoor use; do not use indoors.
- Avoid contact with sharp or pointed objects to prevent injury.
- Only use the waste bin for its intended purpose.
