Safety Instructions:

- Observe the maximum load of 110 kg.
- Use with caution to avoid injury from falls.
- Not suitable for children under 3 years of age.
- Injuries can occur if used improperly.
- Keep the chair away from hot surfaces and chemicals.
- Safety gas spring for seat height adjustment contains potentially dangerous parts, improper use can cause injury.
- The cover fabric is flame-retardant, but care must be taken when handling naked flames.
- The product is rotatable; it should be used with care to avoid the risk of tipping over.
- Ergonomic design supports health, but long periods of sitting should be avoided.
- Follow the instructions for seat height adjustment before use.
- Ensure that the star base is stable on a level surface.
- Do not use beyond the maximum load.
- Ergonomic properties promote healthy sitting postures.
- Suitable for use in office environments.
