Safety Instructions:

- Maximum load: Do not exceed 110 kg. Ensure that the product is used in accordance with the specified maximum loads in order to avoid injuries.
- Visitor chair designed for use by adults, not suitable for children. The product is not suitable for children under 3 years of age due to the risk of choking on small parts.
- Avoid sudden movements when sitting to prevent tipping over and reduce the risk of falling due to improper use or excessive strain.
- The chair is stackable; make sure that it is stable to avoid accidents, damage and injuries. Take care when stacking.
- Avoid improper use to prevent injury. Always use the chair for its intended purpose.
- Make sure that the armrests are fitted correctly to ensure stability. The armrests can come loose if used incorrectly and are made of polyamide, so watch out for possible chemical reactions with harsh cleaning agents.
- Remove sharp edges or protruding parts to prevent injuries.
- Use the product on a non-slip floor to prevent slipping.
- Always sit completely on the seat surface to sit safely.
- Keep the chair away from direct heat sources to avoid exposure to heat.
- Be aware of the height of the backrest to ensure the best seating comfort.
