Safety Instructions:

- Assemble the office chair correctly to avoid injuries.
- Check the mechanics and height adjustment regularly for safety and functionality.
- Do not exceed the maximum load of 120 kg to ensure stability.
- Never load the chair above 120 kg.
- Regular maintenance of the synchronised mechanism is recommended.
- Use the synchronised mechanism correctly to prevent accidents.
- There is a risk of injury from tipping over if used incorrectly.
- Ensure safety and hygiene by regularly cleaning the fabric cover.
- Keep instructions for use in simple language with all safety-relevant information.
- Adjust the seat height using the safety lift and check that it is set correctly.
- Ensure correct adjustment of the backrest and lumbar support to prevent back problems.
- Only use the chair as intended.
- Use double castors for all floor types, ensure correct use.
- Ensure that the wheels are stable on smooth surfaces.
- Keep a safe distance from other objects to avoid injury.
- Not suitable for children under 3 years due to moving parts.
- Use non-slip castors to avoid accidents on slippery floors.
- Regularly check the components for wear and damage.
