Safety Instructions:

- Install all parts and fittings securely to prevent injury from falling over.
- Avoid sharp edges or corners that could lead to injuries.
- Use the product as intended to minimise risks.
- Watch children during use to avoid accidents, especially with hinges or moving parts.
- Regularly inspect the stable connection between the table top and legs to avoid stability problems.
- Do not use the table as a climbing frame or for inappropriate applications.
- Stack chairs securely to prevent them from falling over.
- Keep sharp objects away from the table surface to prevent damage.
- Observe the maximum weight loads to avoid damaging the furniture.
- Set up furniture securely and stably to prevent it from tipping over.
- Minimise the risk of injury during assembly by providing safety instructions.
- Protect furniture from sharp edges and corners.
- Keep materials free from harmful chemicals, especially in working environments.
- Provide clear and understandable instructions for use and safety.
