Article Numbers: 240225, 229974, 229973, 229972

Safety Instructions:

- Ensure safe use; do not place any sharp or heavy objects on the table; protect from moisture and do not use in a damp environment.
- Follow the instructions carefully during installation; avoid improper installation to prevent injury or damage.
- Regularly check the stability and safety of the table, especially if it is moved frequently; check connecting elements regularly to prevent loosening or wear.
- Ensure that all cables and electrical components are securely routed to avoid tripping hazards; follow instructions for safe use of cable routing.
- Only use the table for its intended purpose and in accordance with the manufacturer's instructions; ensure that the table is not overloaded so that the maximum weight loads are observed to avoid structural instability.
- Ensure the use of floor levelling screws to guarantee stability.
- Ensure that the product complies with the applicable European standards; include clear instructions and safety information in understandable language.
- Specify product-specific hazard warnings, especially when used for vulnerable groups.
- Regularly check and update the technical documentation.
- Implement risk management processes to identify and minimise potential risks.
