Article Number: 136130

Safety Instructions:

- The boxes should not come into contact with hot objects or chemicals in order to avoid deformation or damage.
- The boxes are intended for storing small parts; there is a risk of children choking on small parts.
- The products should be protected from direct sunlight to prevent premature ageing of the material.
- The boxes are stable up to a maximum weight of 80 kg; overloading can lead to damage or accidents.
- Make sure that the boxes are always placed on a stable and level surface to prevent them from tipping over.
